

## CAMP WAKE-UP!!

### COME JOIN THE FUN!

Camp Wake-up is a great place for kids! This before and after school care program is adjacent to the elementary school campus for children in grades one through six, and is licensed by the Virginia Department of Social Services. There are 10 different locations. Activities provided include arts and crafts, sports, active and passive games, music, drama, homework time, intervention and prevention programs, and just plain fun!

Our activities are designed to promote the creative and social development of the children. Particular emphasis is placed on building and reinforcement of a positive self-image and the positive expression of cooperative feelings in group situations.

For additional information, please contact one of the facilities listed below:

## YOUTH DEVELOPMENT DIVISION

The Youth Development Division was created to ensure all Norfolk youth are developed into self-reliant, self-confident young adults who can take their place as responsible citizens and members of society in this community.

Staff members are currently in the planning stages of this new program and are looking for your input. During the month of April, the Division of Youth Development will be hosting four community information sessions. Citizens are invited to participate in this planning process by sharing ideas and recommendations about how best to foster the healthy development of youth in this community. For more information regarding these sessions, please call 441-2400 ext. 257.
